Your Business. Our Insight.

TECTURA AND MICROSOFT DYNAMICS: A DISTINCTIVE DIFFERENCE

OUR INDUSTRY KNOWLEDGE,
CLOSE PARTNERSHIP WITH
MICROSOFT, GLOBAL PRESENCE AND
ESTABLISHED LOCAL SUCCESS IS HOW
WE MAKE A DISTINCTIVE DIFFERENCE
FOR OUR CLIENTS.

WE CAN MAKE A DISTINCTIVE DIFFERENCE FOR YOU TOO

Tectura is a worldwide provider of business consulting services delivering exceptional service and sustainable value through consulting, software and IT implementation. Our diverse clientele includes mid-sized companies and larger enterprises across a number of different industries.

You can benefit from our proven track record of focusing skill, experience and deep knowledge in industries and leading technologies to achieve successful results. Our collective expertise comes from a culture of collaboration in the client's best interest.

IN THE UK

We have built lasting relationships by putting our clients first. We invest our expertise, resources and talent in our clients' immediate and enduring success.

Tectura UK has more than 100 clients that are in a variety of industries including food & beverage, process manufacturing, discrete manufacturing, life sciences and the service industries. Employing more than 120 experienced professionals, these team members specialise in the consulting, development and support of Tectura's targeted industries with expertise in Microsoft Dynamics® AX, Microsoft Dynamics® NAV, Microsoft Dynamics® CRM and other related Microsoft technologies.

MICROSOFT PARTNERSHIP

A Microsoft Gold Certified Partner, we have developed a very strong and, we believe, unique relationship with Microsoft at all levels of their organisation. Our expertise and understanding of Microsoft's suite of products combined with our industry knowledge and consulting experience enables us to quickly focus on selling and providing services related to Microsoft business management solutions.

TECTURA | YOUR BUSINESS.
OUR INSIGHT.

TECTURA®

TECTURA'S APPROACH

We understand the complexities for a successful Enterprise Resource Planning (ERP) implementation, and recognise it's not just about the technology. To achieve the client's business vision, the project approach will include:

- Business Benefits
- Business Requirements
- Process Design
- Change Management
- Project / Risk Management

To achieve this, Tectura uses Tectura® Solution Framework (TSF) which is a flexible, yet managed approach to system implementation. It offers clients with specific business requirements project-managed end-to-end implementations of Microsoft Dynamics® software.

In addition Tectura is able to offer our clients complimentary services including:

- Management Consulting
- Assistance in building the business case
- Technical Training
- Support Services

Tectura has built its outstanding reputation based on our local client relationships. We have a proven track record for delivering solutions that enable profitable growth. This is due, in part, to our seasoned professionals who work alongside internal teams in synch with a company's culture to accelerate project completion. Take advantage of a depth and breadth of resources typically available only for large, global companies.

**COUNT ON TECTURA TO BRING TOGETHER THE TALENT,
ENERGY AND RESOURCES IT TAKES TO GO THE DISTANCE.**
